- ▶ in respect of taxable temporarily differences associated with investments in subsidiaries and associates, and interests in joint ventures where timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Previously unrecognised deferred tax assets are re-assessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax is charged or credited to the consolidated income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in the equity account.

- ▶ either the same taxable entity; or
- ▶ when the Group intends either to settle current tax liabilities and assets on a net basis or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

34.2 Current tax

The current CIT payable is based on taxable income for the current year. The taxable income of the Group for the year differs from the profit as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted by the consolidated balance sheet date.

Interest expenses exceeding the ceiling according to the provisions of Decree 132/2020/ND-CP

According to the provisions of Decree 132/2020/ND-CP, the Group is allowed to transfer the interest expenses exceeding deductible threshold in the current year to offset against taxable profits in the following five years from the year after the expense is incurred. As at 31 December 2024, the Group has a total un-deductible CIT interest expense of VND 54,295,974,026 VND (31 December 2023: 21,319,787,698 VND) that can be used to offset against future taxable profits.

The Group and its subsidiaries have not recognized deferred tax asset on these interest expenses because future taxable profit and their tax deductibility cannot be reliably determined at this stage.

Tax losses carried forward

The Company and its subsidiaries are entitled to carry tax loss forward to offset against taxable income arising within five years subsequent to the year in which the loss was incurred. As at 31 December 2024, the Company and its subsidiaries had accumulated tax losses of VND 100.7 billion available for offset against future taxable profits (31 December 2023: VND 106.4 billion). These are estimated tax losses as per the CIT declarations of Company and its subsidiaries, which have not been finalised by the local tax authorities as of the date of these consolidated financial statements.

The Group and its subsidiaries have not recognised deferred tax assets for the above unutilised tax losses due to the uncertainty of future taxable profit at this stage.
